UPDATED 2022

WCPS PATHWAYS

Purpose Driven Curriculum and Pathways Program

An essential portion of our purpose driven curriculum will be the Pathway Program. The goal of our Pathway Program for WCPS High School Students is to ensure that our experience and course work has a purpose and that our curriculum is preparing students to attend a four-year college, attend a two-year technical college, transition into the workplace, or acquire functional life skills. We want our students, in conjunction with their parents, to begin formulating an idea of what they want to do after high school. This program is an integral part of our purpose driven curriculum which identifies different academic pathways for our students. These informed decisions will assist students to register in the appropriate coursework and ultimately enable them to be successful in their post-secondary endeavors. The first step to success is to pick a Pathway below.

Which pathway will be your journey to graduation?

WCPS = Wythe County Public Schools
WCC - Wytheville Community College

WCTC = Wythe County Technology Center
Co-Op = Cooperative Work Experience

1 - Honors Academy

This program will involve a small number of students, selected from all three high schools, who will demonstrate exceptional academic ability and talent. These students will be enrolled in dual credit classes, will participate in Governor's School or WCC Scholars Program, and will focus on STEM initiatives. These students will be challenged with a rigorous curriculum. This pathway is designed for our most advanced students.

5 - Career Readiness

This program is designed for students who are focused on earning a certification or license for a specific vocation. Students in this pathway will be ready for work immediately after graduation. Students will enroll in classes at WCTC and WCC as appropriate. Consequently, students may opt to register in dual-enrollment vocational courses. Release time to work may be granted while earning high school credits.

6 - Life Skills/Graduation

This program will address students who are struggling with the traditional high school curriculum. These students will focus on functional academics which will help them gain independence, basic job skills, and daily living skills.

Additional information on College & Career Readiness may be found on the VDOE website.

2 - College Scholars

This program will involve students who have completed most of their high school requirements and who want to focus on gaining college credits. Students will be required to take a specific set of dual-enrollment classes that will prepare them to enter a four-year college.

3 - College Readiness

This program will involve students who plan on attending college, but who are not ready or interested in a full load of dual enrollment credits during high school. We will ensure these students have all of the necessary coursework to successfully enter most two or four-year colleges.

4 - Transition to Work

A – Students who want to transition to work with an Advanced Diploma

B – Students who want to transition to work with a Standard Diploma

This program is designed for students who possess a clear understanding of what vocation they want to engage in after high school. We will create a partnership with various local businesses to ensure that students are ready to enter the workplace having completed the necessary training and/or obtained the prerequisite certification to begin a job soon after high school graduation.

Exploring the Paths to YOUR FUTURE

The 16 Career Clusters

Does the phrase "Your choices will affect the rest of your life" sound familiar? It's no exaggeration to say the elective choices you make in high school could pave a gratifying path to your future. As you begin to plan your academic pathway you will need to make important decisions on what training you want to receive in high school. Educational opportunities in Wythe County can prepare you for your ideal career path. Good careers don't just happen. Careful planning along with good choices and hard work will lead you to a happy and productive adult life as well. The first step on this journey is understanding what your options are and how to make your personal interests fit in the options you have in high school when it comes to coursework.

To simplify this decision making process, the US Dept. of Education developed 16 Career Clusters with their own instructional focus and skill requirements clearly defined.

The Career Cluster framework is useful for students to help connect their required course work towards a career interest.

Since you are required to take a certain amount of credits in high school, you might as well use your time effectively to obtain the basic skills needed to put you on the path towards a productive career.

Within each cluster, there are elective courses that correspond to a collection of educational opportunities to prepare you for your chosen career.

What classes should I take to make the most out of my time in high school?

STEP 1:

Log in and take the Student Interest Inventory on MajorClarity.com to help determine what career choices are available based on what activities you enjoy, your personal qualities, and the subject you like.

STEP 2:

Explore the career clusters that best match your interests and talents.

<input checked="" type="checkbox"/>	Career Cluster	Description
	Agriculture, Food & Natural Resources	The production, processing, marketing, distribution, financing, and development of agricultural commodities and resources including food, fiber, wood products, natural resources, horticulture, and other plant and animal products/resources.
	Architecture & Construction	Careers in designing, planning, managing, building and maintaining the built environment.
	Arts, A/V Technology & Communications	Careers in designing, planning, managing, building and maintaining the built environment.
	Business Management & Administration	Planning, organizing, directing and evaluating business functions essential to efficient and productive business operations.
	Education & Training	Planning, managing and providing education and training services, and related learning support services.
	Finance	Planning, services for financial and investment planning, banking, insurance, and business financial management
	Government & Public Administration	Executing governmental functions to include governance; national security; foreign service; planning; revenue and taxation; regulation; and management and administration at the local, state, and federal levels.
	Health Science	Planning, managing, and providing therapeutic services, diagnostic services, health informatics, support services, and biotechnology research and development.
	Hospitality & Tourism	Management, marketing and operations of restaurants and other foodservices, lodging, attractions, recreation events and travel related services.
	Human Services	Preparing individuals for employment in career pathways that relate to families and human needs.
	Information Technology	Design, development, support and management of hardware, software, multimedia, and systems integration services.
	Law, Public Safety, Corrections & Security	Planning, managing, and providing legal, public safety, protective services and homeland security, including professional and technical support services.
	Manufacturing	Planning, managing and performing the processing of materials into intermediate or final products and related professional and technical support activities such as production planning and control, maintenance and manufacturing/process engineering.
	Marketing	Planning, managing, and performing marketing activities to reach organizational objectives.
	Science, Technology, Engineering & Mathematics	Planning, managing, and providing scientific research and professional and technical services (e.g., physical science, social science, engineering) including laboratory and testing services, and research and development services
	Transportation, Distribution & Logistics	Planning, management, and movement of people, materials, and goods by road, pipeline, air, rail and water and related professional and technical support services such as transportation infrastructure planning and management, logistics services, mobile equipment and facility maintenance.

STEP 3: Investigate what type of education or training your selected career clusters require:

College Pathway or Career Readiness Pathway

STEP 4: Decide which WCPS pathway will lead you towards your career path:

- Honors Academy**
- College Scholars**
- College Readiness**
- Transition to Work**
- Career Readiness**
- Life Skills**

STEP 5: Talk with your school counselor about which high school core classes and electives you will need to take to better prepare you for your career aspirations.

Use the following pages in this guidebook to see which electives your high school can offer you based on your career interests.

WCC Online Dual Enrollment	WCPS Pathways 1, 2, 3	11 - 12	Virginia College Placement Test (VPT) in Reading and/or Math <i>See School Counselor and WCC Career Coach for additional pre-requisites</i>	https://www.wcc.vccs.edu/dual-enrollment
Linwood Holton Governor's School	WCPS Pathways 1 and 2	11 - 12	Virginia College Placement Test (VPT) in Reading and/or Math <i>See School Counselor and WCC Career Coach for additional pre-requisites</i>	http://www.hgs.k12.va.us/Courses_Page.htm

What to Know Before Taking Online Courses

Value an independent learning experience.

Be organized from the beginning.

Manage your time wisely. Don't get behind! Don't procrastinate!

Reserve the same time each day to work on your assignments.

Have a dedicated study space.

Become familiar and follow the instructor's expectations.

Identify learning objectives and goals.

Build a Study Plan

Ask for help when you need it.

CAREER PLANNING Navigation

CHOOSE YOUR FUTURE

Wythe County Public Schools are proud to offer an outstanding career exploration opportunity for high school seniors.

The career-planning component of the Profile of a Virginia Graduate provides an opportunity for students to learn more about the employment options and career paths they first explored in elementary and middle school. While there is no specific career-related activity that a student must experience (such as an internship or job-shadowing assignment) to earn a diploma, school divisions must provide opportunities for students to learn about workplace expectations and career options in their own communities and elsewhere. By reducing the number of SOL tests students must pass to earn a diploma, the new standards increase flexibility for schools to expand work-based and service-learning programs that promote college, career and civic readiness.

Please see your School Counselor for options regarding the following Work-based Learning (WBL) opportunities you may have:

- ❑ **Career Education (WBL8475)** This experience will provide students with on-the-job-instruction and potential career exploration opportunities based on the students' selected career cluster(s). The student will also have the opportunity to strengthen motivation and acquire soft skills, workplace readiness skills, and professional skills. Students will receive a Pass (P) or Fail (F) grade for this course.
- ❑ **Career Education (WBL8475-B) Capstone** This experience will provide students with an opportunity to reflect on the work-based experience and display what they understand about the key aspects of the industry/career. This process will enrich the work-based learning experience and allow the student to apply meaningful knowledge and skills obtained through the program through a research based project. Student projects will be graded using a rubric.
- ❑ **Manufacturing Excellence Training (WBL8475-ME)** This experience will provide students with an opportunity to observe the successful practices of a wide variance of manufacturing processes. Students will attend 8 sessions consisting of on-site training and direct instruction from Manufacturing professionals.
- ❑ **Education for Employment (WBL9085)** This course teaches students to make informed career and continuing education choices as they transition from school, gain technical skills, and adapt to the workplace. Students are taught ethical behaviors and career-research, job-acquisition, workplace-communication, self-awareness, self-advocacy, customer-service, and life skills.

GROW

Students must be upper classmen in good academic standing and on track to graduate.

Students must attend 8 career development workshops provided by WCPS. Student will learn skills and develop professional etiquette necessary for success in the workplace.

Students will gain meaningful work experience with professional mentors while potentially earning wages, too!

WORK-BASED LEARNING (WBL) IS A COORDINATED, WORKPLACE EXPERIENCE THAT IS RELATED TO STUDENTS' CAREER GOALS AND/OR INTERESTS. WCPS WILL PROVIDE STUDENTS INSTRUCTIONAL PREPARATION PRIOR TO THE WBL EXPERIENCE. WCPS HAS FORMED PARTNERSHIPS WITH LOCAL BUSINESSES, INDUSTRIES, AND OTHER ORGANIZATIONS IN THE COMMUNITY. WBL ENABLES STUDENTS TO APPLY CLASSROOM INSTRUCTION IN A REAL-WORLD BUSINESS OR SERVICE-ORIENTED WORK ENVIRONMENT.

Job Shadowing is a method of short-term, school-coordinated career exploration in which the student interviews a competent worker about his/her job and industry and "shadows" (follows) the worker to observe the performance of a variety of job tasks.

Service Learning is a method in which the student engages in community-service work for a specified number of hours in order to gain developmental experience.

Internship is a progressive, school-coordinated method that places the student in a real workplace environment in order to develop and practice career-related knowledge and skills needed for a specific entry-level job.

Cooperative Education is a career preparation WBL method that combines CTE classroom instruction with paid employment that is directly related to the student's plan of study.

Youth Registered Apprenticeship (YRA) *for Students 17 and under* is a career preparation WBL method that integrates school-based and work-based learning to help students gain employ-ability and occupational skills.

Virginia Profile of a Graduate Requirements for Students Entering as Freshman in 2018 and Beyond

Three Diploma Options

There are three diploma options available for students who are or were first-time ninth graders in 2018-19 and beyond. The three options are the Advanced Studies Diploma, Standard Diploma, and the Applied Studies Diploma.

Advanced Studies Diploma (Class of 2022)

Subject	Standard Units of Credit Required	Verified Credits Required
English	4	2
Mathematics	4	1
Science	4	1
History/Social Science	4	1
World Language	3	
Health & Physical Education	2	
Fine Arts or Career & Technical Education	1	
Economics & Personal Finance	1	
Electives	3	
TOTAL	26	5

Advanced Studies Diploma

For students who see themselves attending a four year college such as JMU or VA Tech this diploma would be very helpful.

For students with IEPs it should be noted, after graduating with an Advanced Studies Diploma, or Standard Diploma, students will no longer qualify for free appropriate public education or FAPE, and will not be able to receive ongoing services through the public school system after graduation.

Standard Diploma (Class of 2022)

Subject	Standard Units of Credit Required	Verified Credits Required
English	4	2
Mathematics	3	1
Science	3	1
History/Social Science	3	1
Health & Physical Education	2	
World Language, Fine Arts or Career & Technical Education	2	
Economics & Personal Finance	1	
Electives	4	
TOTAL	22	5

Standard Diploma

Although both the Advanced Studies and Standard Diploma are designed to prepare students to be college and career ready, this diploma allows students the opportunity to attend 2-year colleges including community colleges and some 4-year colleges. Also, for students that would like to master a trade or enroll in an apprenticeship such as welding or cosmetology this is the diploma that is often requested as a minimum requirement.

If you are earning a Standard Diploma you must also complete two sequential electives and earn a career and technical education credential.

Applied Studies Diploma

The Applied Studies Diploma is for students who have completed the requirements of their IEP and who do not meet the requirements for other diplomas. Students who earn this diploma will be eligible for ongoing services, FAPE, through the age of 21.

Additional Requirements

Additional requirements for students earning an Advanced Studies or a Standard Diploma are that they must complete one virtual course and be trained in Emergency First aid, CPR and the use of an AED. For questions regarding either of these requirements, consult your school counselor.

For additional information please visit the VDOE website at <http://www.doe.virginia.gov/instruction/graduation/index.shtml>

Virginia Graduates Shall Acquire and Demonstrate Foundational Skills in

Wythe County Public Schools will integrate and promote The Five C's in all core and elective subject areas.

Profile of a Virginia Graduate In Virginia, the Life Ready Individual:

CONTENT KNOWLEDGE	WORKPLACE SKILLS	COMMUNITY ENGAGEMENT & CIVIC RESPONSIBILITY	CAREER EXPLORATION

Sets goals for career, school and life and has knowledge of a variety of pathways, course work, and/or requirements to achieve goals. Develops skills to align to current workplace needs, and that adapt to evolving job opportunities. Applies skills and knowledge by participating in workplace experiences.

Critical Thinking, Creative Thinking, Collaboration, Communication, and Citizenship

How do I determine which career cluster is right for me?

Students were given a career interest inventory in Middle School to help identify their top three potential Career Clusters. The interest inventory will help students explore career options based on their likes and dislikes. Students can find a career they will love based on their personality and work values. Some sample Career Cluster Inventories can be found at:

- <https://careertech.org/sites/default/files/StudentInterestSurvey-English.pdf>
- <https://www.vawizard.org/wizard/careersAssess>
- For additional information on Career Opportunities in all states go to <http://www.careeroutlook.us/>
- Wythe County students can log-in to their Major Clarity account at <https://platform.majorclarity.com/signin>

If students change their minds, will they be able to change their pathways?

Absolutely! The WCPS Pathways or Career Clusters are not a permanent commitment. Students will continue to change their minds as their interests, likes, dislikes, and college and/or career aspirations change with their age and maturity. But it is good to get the discussion started now so students can use their time in high school to explore different career options.

Where can I find more information about college and/or career readiness?

The VA Department of Education has provided guidance on College and Career Readiness to prepare VA students for postsecondary education and employer expectations. For more information on their initiative go to: http://www.doe.virginia.gov/instruction/college_career_readiness/index.shtml

The VA Department of Education has also provided information and links to help students investigate the 16 Career Clusters to advance their career goals. To find out more about options for your career choice go to: http://www.doe.virginia.gov/instruction/career_technical/career_clusters/index.shtml

The VA Education Wizard is a wonderful website to help secondary and post-secondary students in Virginia to career and/or college readiness. The IMAGINE tab on their website guides students to the reality of how much income is needed to live their preferred lifestyle. VA Wizard will help lead you down the path to building a career. For more information go to: <https://www.vawizard.org/wizard/home>

The VA Career and Technical Education Resource Center has provided students a way search for meaningful occupations either by browsing career clusters or by their favorite academic subject. To get more help finding a career to fit your interests, go to: <http://www.cteresource.org/cpg/>

MajorClarity helps ensure that every student's education leads to a successful career outcome—whether through a 4-year degree or going into the workforce. Students only retain 10% of what they read, which is why interactive "test-drives" are critical to driving student outcomes and how we achieved a 189% increase in students building career aligned course plans of study. <https://majorclarity.com>.

The Wytheville Community College website has a fantastic link on to career pathways in our local region. Students can explore what the required criteria are for their career interests as well as what the salary range is for our region. For more information go to: <http://www.wcc.vccs.edu/pathways>
